

2019 April Fool's Contest Hints

2019-04-01

M19A0 Recursion

Recursively scan the QR codes (be patient)

Sometimes viewing things from different angles may give you surprise!

M19A1 Christmas or Halloween?

What do Oct and Dec stand for?

There is an extra restriction on x , that is x cannot be the following numbers:
8, 9, 18, 19, 28, 29

There is a similar mini-comp question 2 years ago,
you may get some idea there

M19A2 Leave the Campus

Think out of the box!

M19A3 Save and Exit

Do you think that a web designer knows how to save and exit VIM?

What will you do when you don't know how to save and exit VIM?

Google it please

- no, I don't mean google how to save and exit VIM
- Google the problem description

M19A4 The Last Digit

It's N!!!

M19A5 Polyglot

Try to invent your own language!

Real life languages are not required to solve this problem.

M19A6 Not Really a Blank Page

Actually, the image with black border contains something other than the text

“This page is intentionally left blank.”

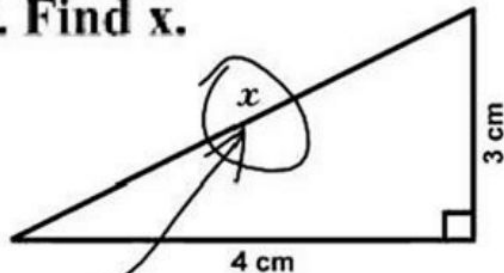

M19A7 Translation Needed!

Do you know [Wingdings](#)?

M19A8 An Easy Equation

3. Find x .

Here it is

M19A9 Cross the Roads

Press the Submit button and notice the language restriction :)

You can read the input with the following blocks.

```
Read line into 2 variables: r , h
set y to prompt for text with message "Input y"
set y to make list of numbers from text y with delimiter ""
```
